NO. 2

NEWS OF THE VICINAGE.

George Young lost his new residence at Kingston by fire.

Two Corbin men, Will McChord and John Martin, broke out of the Middleboro jail.

The Wayne county Record says that Marshall Alexander has gone to Lincoln to live.

William Abshire was drowned while attempting to ford a swollen stream near Richmond.

The Advocate says that the W. F. Stanley killed at Manila was not Preacher Stanley's son.

A new opera house building to contain a lodge room, two stores and a library room, is talked of in Danville.

Ben Huffaker, who escaped from the Somerset jail, was caught by U. S. Deputy Marshal Coleman near Liberty.

A. P. Settle at Big Hill, Madison county, and J. S. Griffy at Gudgel, Anderson county, were appointed postmasters.

Mrs. S. G. McElroy, wife of Superintendent McElroy, of Marion county, died suddenly Friday morning of heart trouble.

Harry Hutchison, aged 18 years, was arrested at Corinth on the charge of wrecking a Cincinnati Southern fast flyer last week.

Collector Yerkes' revenue receipts during February aggregated \$24,561. Of this, \$219,556 were on whisky and \$2,910 on documentary stamps.

Harrison Taylor was lodged in jail at Pineville for being accessory to the murder of Wilk Brock, of which his son, Grant Taylor, was acquitted.

Lightning split off an end of A. Vogliotti's house at London, struck the flag pole of the Sue Bennett school, while it was in session and knocked the Negro janitor down.

There are four people living in Monticello whose combined ages are 346 years. They are M. D. Hardin, E. F. Fewston, Edmond Cook and Mrs. Eliza Jones Phillips, says the Record.

A petition is being circulated to vote upon the question of license under the local option law all over the county. The vote to be taken on the 3rd day of June.—Wayne County Record.

Andrew M. Taylor, one of Boyle county's oldest residents, died yesterday after a protracted illness, which was aggravated by an attack of the grip. He was 76 years old.—Advocate.

Gov. Bradley declined to pardon Jas. Donaldson, of Laurel, convicted of deserting his infant children, and given one year. He also said nay to A. H. Todd's application. He was convicted of manslaughter in Pulaski.

This of course is from Middleboro: It is stated that the deal has gone through whereby an English syndicate obtains control of all coal mines at Middleboro, Coal Creek, Jellico and Oliver Springs. Amount paid, \$30,000.—000.

Steve and Ed House, who were arrested on the charge of misusing the mails and taken to Mt. Vernon from Madison county, were held in \$100 and \$1,000 bond respectively, which they promptly gave and were released from custody.

Will Elliott reports having killed during the bird season this year, 510 birds. He hunted rabbits seven days, and killed more than 300. He says in the past 12 seasons he has, with the same gun, killed, 7,200 birds.—Advocate.

John W. Yerkes, chairman of the Executive Committee of the State Commercial Convention, has called a meeting of the committeemen, to be held in Louisville, March 18, to decide upon the time and place for holding the next convention.

Lae Turner, of Middleboro, was murdered near Jellico, by men from whom he was trying to collect money. He is the last of five brothers, all of whom have died with their boots on. It was only last November that "Wild Bill" Turner had his head blown completely off without a word of warning.

COLORED RECRUITS.—The war department has wired Lieut. W. T. Johnston, recruiting officer at Lexington, Ky., to enlist colored applicants for cavalry and infantry service, sending the former to Fort Grant, Arizona, and the latter to Fort Douglas, Salt Lake City. This is an excellent opportunity for young colored men to get into the regular army. Recruits for white infantry and cavalry regiments are also wanted. Apply to Lieut. W. T. Johnston, Main St., Lexington, Ky.

The remarkable news comes from Nardin, Ok., that Mrs. A. L. James, already the mother of 20 children and 60 years old, gave birth to her 4th pair of twins Saturday.

Mrs. Harriet Moore, of Bloomington, Ill., put rough on rats on bread. Two of her children ate it and died within two hours of each other.

About 200 recruits from the 2nd Kentucky regiment are for the 22d United States Infantry which has just reached Manila.

KID'S STORE.

An unprecedented mortality prevailed in flocks of lambs during the cold. An occasional shepherd convinced that insufficient nourishment because of prolonged restriction of ewes to dry feed, was a more dangerous factor than the intense cold supplemented their fadders with bran, meal, etc., and exult in profitable results.

The denizens of Stanford would have been moved to admiration of the brilliant liars, still abroad, could they have heard the blood curdling rumors of their deplorable afflictions and threatened extermination which flew fast and thick for a week. We congratulate the city on its escape from a disastrous epidemic of a loathsome scourge.

The old time indictments of lightning rod artists, patent churn sires and automatic washing machine philanthropists have retired from their periodic tours of persecution and the farm machinery cohorts now have full swing. The occasional canvasser for a gold eyed needle, improved bluing or cheap tea who is promised a prize valued at almost as many dollars as the agent sends in dimes, is a refreshing variation.

Col. Samuel P. Stagg and wife, of your city, were delightful guests of relatives near here last week. Please urge Bob Gentry, Harve Helm, Jim Holdam and George Penny to listen generously and credulously to Portie's details of the capriciousness of the way they do run sometimes. It is not just the most gratifying experience for an expert from the hub to be done up at his strong game by Reubens on the periphery. Pray he may have better "luck" another time.

The winter just closed has been a record smasher in prolonged intense cold, and thus early, the spring highest water marks submerged. Early sown wheat is luxuriant, but latest of this vicinity was in a precarious condition up to Friday night, and it remains to be determined whether the compaction of the "spewed up" condition of the surface is more than offset by the denudation of slopes. Not a furrow has been plowed and the grangers are rather blue, having settled the constitutional consistency, international aspects and expediency of expansion; having overhauled all data and traditions of phenomenal weather since Boone's invasion of the wilderness, and raised the quarantine against Cuban yellow fever and St. Asaph's small-pox, our chronic nail keg and soap box statuary, and dead-shot amber squinters have exhausted the catalogue of entertaining dialectics and profitable gossip, so, we are reduced to a season of glum and unusual moodiness.

Our city, situated, like Cairo, at confluence of two great waterways, the capricious Carpenter's and freakish Frye's creeks, was submerged as never before Friday night, and Saturday afternoon, last. The entire business part of the place and a large part of the residential suburbs were flooded, and citizens driven from their homes. Judge Myers was driven to inspection of the situation at 10 o'clock Friday night by his apprehensions about security of the levees, and when he forged his way into center of the city horseback realized his gravest dread in the general overflow. Fred Goode and family slept soundly in spite of the roar of waters, crash of floats and yells of neighbors from the Northern Heights who would have warned them. Judge M. transferred them to shore on his horse. Winter Wright's wagon was washed from his barnlot, a mile above this place. Fencing, fodder and all floatable matter were swept from hitherto secure heights above channels of the streams. Almost a clean sweep of saw mill yard was made. The mill building was moved from its foundations, machinery submerged and removal and reconstruction necessitated. The abutments of the ancient bridge which covers Frye's creek South of town are reported damaged to a state of insecurity. Theologically, sentimentally and essentially we are a water-loving constituency, but too much of a good thing sometimes disgusts.

A NARROW ESCAPE.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D., "Was taken with a bad cold which settled on my lungs, cough set in, and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and, thank God, I am saved and now a well and healthy woman." Trial bottles free at Penny's Drug Store. Regular size 50c and \$1.00. Guaranteed or price refunded.

Last year there were imported into the United States 1,539,066,750 grains of quinine. This means a consumption of something like 20 grains for every man, woman and child, as there were practically no exports of the article.

LUNG IRRITATION.

Is the forerunner to consumption. Dr. Bell's Pine-Tar-Honey will cure it, and give such strength to the lungs that a cough or a cold will not settle there. Twenty five cents at Penny's Drug Store.

BRO. GRINSTEAD GOES FOR 'EM.

MILLERSBURG, Mar. 3.

DEAR INTERIOR.—I thought perhaps another letter from this "neck o' the woods" might be appreciated by my friends who read your valuable paper. Another quarter has rolled by since my other letter. Have had three funeral and five weddings during the quarter. Have had blizzards and the grip over here in abundance, but have never closed the door of the church morning or evening.

We have raised \$504 on new church debt; have paid on pastor's salary \$160; presiding elder \$25; current expenses \$26, &c.

Our missionary institute met here last week; 14 preachers present and a splendid program carried out.

We were alarmed about small-pox in your town, but have felt some relief since receiving both issues of the paper last week. We were not so afraid as one of your subscribers I heard of that threw the paper in the fire when he opened it and saw "small-pox" in it.

Well, these are days of surprises and wonders. Who ever thought we would see weather in Kentucky as cold as in last month? Who ever thought of small-pox visiting a town like Stanford—so far in advance of the average in point of morals and religion? That a few people there were in danger of it, no one from a Bible standpoint would doubt. The council, for instance, that voted those vestibules of hell, called saloons, and vile men who come in to run the damnable traffic against the wishes of three-fourths of the people and tax-payers.

Who would have thought 20 years ago that as good a man as George O. Barnes was then, would let the devil so side-track him as to drag the idea before the public that God had become a bankrupt so His servants had to become professional beggars in order to preach His gospel? Alas, how the mighty have fallen!

Few, if any, were surprised at L. M. Lasley when he flew in the face of the Church Law and Government and began to advocate the "free thinkers" policy, when he sued a nice lady for divorce and got married in a week after he got it, and when such a frequent writer to so many papers dropped out of print and from before the public, &c., but some of us were surprised when so good and clean a man as our Bro. Ben Helm should seemingly advocate his cause and solicit funds to help him run a rescue mission, &c. Would it not be a better thing to pray the Lord to send a Nathan to Lasley to cry in his ears: "thou art the man," and rescue Lasley first?

But lest I should shock the false modesty of some of my over-righteous friends, I had better stop. So with malice toward none and real charity for all and a thousand blessings on editor and readers, I am yours sincerely, W. S. GRINSTEAD.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer the money back if it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, or by Mail, to the best.

Hall's Family Pills are the best.

Miss Annie E. Williams, of Philadelphia, attending the Kindergarten convention at Cincinnati, is the original of the woman's head on the silver dollar. As she is still a Miss, she must be getting to be a very old maid.

SPAIN'S GREATEST NEED.

Mr. R. P. Oliver, of Barcelona, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Restorer, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed only 50 cents. Sold by Penny's Drug Store.

The Kanawha river covers almost the entire valley. Two-thirds of Charleston is flooded and four feet of water surrounds the capitol. Eastern Kentucky streams are also very high and pouring vast floods into the Ohio.

CHAMBERLAIN'S COUGH REMEDY.

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by Craig & Hocker, Druggists.

McKINNEY.

Jacob Hummelstein has advertised a "closing out sale" of his stock of goods here, and says he will locate in Stanford, where he will deal chiefly in country produce. We don't like to give Jacob up, but we can't "always sometimes" hold him. Twice he has stopped with us in business sojourning in all over five years.

Mrs. Mariah McKinney, who has been sick for some weeks past, is said to be improving. Alvin Barton is up again after a three weeks' confinement with some bronchial trouble. In response to a telegram Mrs. Mollie Hummelstein went to Danville Friday to see her sister-in-law, Mrs. Henry Leavner, who was reported as "bleeding at the heart."

The heavy rains of Friday and Saturday have wrought great damage to the pikes leading into this place. The pike between here and J. S. Murphy's is said to be impassable in some places, a bridge or two having washed away, from the rain fall Saturday afternoon. Green River and Hanging Fork had on their "Sunday clothes" and did the "swell" act for 24 hours to the dismay of residents along their turbulent courses.

There was no Sunday School at the Presbyterian, and an attendance of only 31 at the Baptist church Sunday morning. High waters and impassable roads, together with the unfavorable weather Sunday morning, and a want of proper interest in the work assigned us as christians, must have been the cause. Saturday was a much more disagreeable day than Sunday, and with all its thunder and lightning and rain and hail, plenty of people were here on business for themselves, but the little snow and wind of Sunday morning was sufficient for an excuse for even many of the people in town to stay from the House of God. O, how little we appreciate our privileges!

Mrs. C. L. Crow returned Sunday from a week's visit to her parents, Mr. and Mrs. N. R. Davidson, at Somers, T. John Baugh has gone to Pulaski county with a view to purchasing a farm in the Flat Lick neighborhood. John L. Tanner will leave this week on a prospective business trip to Houston, Texas, to locate. We should very much dislike to see Mr. Tanner and his excellent family leave us permanently, but feel sure they will carry with them the respect of all our best people. Messrs. Tom Green, Sam Lyons and Will Montgomery, all young men of this neighborhood, left here Tuesday for a point near Bloomington, Ill., where work has been secured for them, by Logan Green, who proceeded them a few days. John Hughes, "Little Johnnie," left here for Indiana Friday, where he hopes to find business profitable enough to justify his removal to that State. His wife and children are at present with her parents, Mr. and Mrs. Moses Coffey.

THE EAGLE, KING OF ALL BIRDS.

Is noted for its keen sight, clear and distinct vision. So are those persons who use Sutherland's Eagle Eye Salve for weak eyes, styes, sore eyes of any kind or granulated lids. Sold at Penny's at 25 cents.

An English syndicate has bought the Popocatepetl volcano in Mexico for \$250,000 in gold. The most extensive sulphur deposit in the world is located in the crater of the volcano, and it is the intention of the syndicate to build a cog-wheel railroad to the top of the mountain in order to handle the product.

THAT THROBBING HEADACHE.

Would quickly leave you, if you use Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by Penny's Drug Store.

The small-pox at Stanford prevented Col. Walton's indispensable INTERIOR JOURNAL reaching us on time last week and until it showed up we were like an old maid whose poodle dog had died. Of the two, the average Kentucky editor would about as soon have a case of small-pox as to be compelled to do without Walton's excellent paper.—Richmond Register.

A FRIGHTFUL BLUNDER.

Will often cause a horrible Burn, Scald, Cut or Bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures Old Sores, Fever Sores, Ulcers, Boils, Felons, Corns, all Skin Eruptions. Best Pile cure on earth. Only 25 cts. a box. Cure guaranteed. Sold by Penny's Drug Store.

Beatrice Harraden, who wrote "Ships That Pass in the Night," has written a novel called "I Too Have Passed Through Wintery Terrors."

COUGHED 25 YEARS.

I suffered 25 years with a cough, and spent hundreds of dollars with doctors and for medicine to no avail until I used Dr. Bell's Pine-Tar-Honey. This remedy makes weak lungs strong. It has saved my life.—J. B. ROSS, Grantsburg, Ill.

THE INTERIOR JOURNAL

STANFORD, KY., - MAR. 7, 1899

W. P. WALTON.

THE Glasgow Times says every aspirant for the Legislature should be asked: "Do you stand upon the national platform laid down in the Chicago convention of '96? Are you for or against the Goebel election law, the Chinn school book bill and the McChord railroad bill? If he hesitates, vacillates or cogitates in taking a stand, he isn't a democrat, and should not represent democrats." This kind of a bluff game may work in Barren, but will not work elsewhere. The Chicago platform is a sufficient test of democracy, and the Goebel election law having been passed upon favorably by the highest court ought to be accepted by all good democrats as any other law on the statute books, but who has the right to make the Chinn school book bill, which is a mighty good one, and the McChord bill, which is a most iniquitous one, a test of democracy? We hold our democracy as sacred as we do religion, but if the McChord bill is to be made a test, we are going to kick and keep on kicking to the end. The acceptance or rejection of such a bill has no more to do with a man's democracy than whether he is for or against snow birds. Do not be unreasonable, Richardson, democracy hasn't got every thing in a sling in Kentucky now and conservatism must prevail.

THE refusal of 44 democrats to support him in the attempt to declare the seats of military congressmen vacant because the constitution forbids a member from exercising the functions of a law maker while holding an army commission, so disgusted Congressman Bailey, leader of the minority in the House, that he threw up his job and declared he will not be a candidate for its next session. He very naturally doesn't want to be held responsible for his party violating a plain provision of the constitution and says that in the future he will work only in the ranks. As a leader Mr. Bailey has made mistakes, but he has done as well probably, as any other man under the circumstances, and his retirement will be regretted. Mr. Richardson, of Tennessee, who aspires to the leadership, will likely be given the honor.

WALTER EVANS, of Louisville, got the U. S. judgeship after all and that settles one congressional contest made simply for the money there is in it to contestant. He never had the slightest grounds for contesting Oscar Turner's claims, no more has Davison those of Mr. Gilbert. Both are out for the stuff and Evans, having gotten his, will subside. Let McKinley give Davison a guager's place or something of the sort and his contest will also go a'glimmering.

THE turning of the clock back, which seems to be an incident of the closing of every Congress, was observed Saturday as usual, but only for 10 minutes Reed has his horses so well in hand that everything he intended should be done had been done and the session closed, with resolutions of thanks to the speaker presented by Mr. Bailey and in the singing of psalms and other idiotic doings for the class of men who took a hand in them.

THE president is said to have told Attorney General Taylor, as a balm for not appointing him to succeed Judge Barr, that he thought him the strongest man in the party for governor of Kentucky and his appointment would eliminate him from politics. This kind of soft soaping might work on a man like Taylor, but even he would prefer something solid to cajolery.

THE Senate promptly confirmed the president's nomination of Dewey to be admiral and did a further most praiseworthy act when it confirmed Sampson and Schley as rear admirals, but placing the gallant Marylander two numbers ahead of the vainglorious Sampson. This settles the controversy which has been going on for some time to the general satisfaction of the entire country.

AFTER many trials and great tribulations, the Wayne County Record has at last been launched on the uncertain sea of journalism. It is a 5-column folio and the initial number shows that Editor J. A. Phillips and Kirk Boone, the head of the mechanical department, know "where they are at."

ONE of the last and meanest acts of Czar Reed was to give Gen. Wheeler the icy stare when he asked the privilege of speaking five minutes and then utterly ignoring him. He evidently agreed with Bailey that Wheeler had no business to speak in Congress while holding an army commission.

THE Outage bill was passed by the Senate with amendments that were rushed through the House. It will save distillers thousands in taxes on evaporated liquors and it is said that John B. Thompson, of Harrodsburg, will get a lobby fee of \$100,000 for getting it through.

THERE was method in Speaker Reed's refusal to recognize Gen. Wheeler. He knew that to do so would be to give him standing in the House, the exercise of whose functions he had constitutionally relinquished when he accepted a general's commission. Bailey's effort to enforce the constitution was refused consideration by the House, but he was right; and it is better to be right than president or on the popular side either.

WE regret to chronicle the death of James R. Wood, who has for the last 14 years so ably edited the Hopkinsville New Era. The end came of heart trouble while he was in a sanitarium at Nashville.

THE court of appeals has reversed itself again in a bank case. We do not give this as an item of news, but simply as a matter of fact in a proposition taken for granted.

POLITICS AND POLITICIANS.

Ex Gov. McKinney, of Virginia, is dead.

The Senate refused to confirm S. J. Barrows as librarian of Congress. The deficiency in current revenues will be \$159,000,000 by June 30th, the experts say.

Reed is opposed to the Nicaraguan Canal project and very successfully sat down upon it.

Grover Cleveland, his Public Printer Benedict and others are hunting in South Carolina.

E. B. Boulden was appointed postmaster at Millersburg to fill a vacancy caused by death.

There were 11 deaths of Congressmen during the session just closed, a pretty large per cent.

The Indiana Legislature voted Mrs. Oliver P. Morton a pension of \$100 a month for the rest of her life.

Gov. W. R. Merriman, of Minnesota, was appointed and promptly confirmed to be director of the next census.

Jack Chin says he and Hardin are kinsfolk but he is for Goebel for governor and Blackburn for U. S. Senator.

The lower House of the last Congress passed 1,635 bills and resolutions, or more than 400 more than any previous House.

The Cynthia Democrat says that Attorney General Taylor's knowledge of law could be safely stowed away in a goat's heel.

The 55th Congress was prodigal with the people's money. Its appropriations amounted to a billion and nearly 600 million.

Speaker Reed refused to sign warrants for the Congressmen salaries of Wheeler and others, who hold army commissions.

The democratic county committee of Boyle will decide on the 9th the time and manner of naming a candidate for representative.

Representative J. W. Crawford, of the 4th Texas district, died of heart disease during the expiring hours of the 55th Congress.

Hon. Emmett Orr was renominated for representative by the democrats of Owen by over 400 majority. He will be a candidate for speaker.

Jessamine county claims never to have had a candidate for State office in 100 years until now—T. F. Pilcher for railroad commissioner.

J. F. Dempsey got most of the instructions for renomination for railroad commissioner from the 1st district and he will be named at Hopkinsville on the 10th.

The new Spanish Cabinet, headed by Senor Silvela as Premier and Minister of Foreign Affairs, took the oath of office. Admiral Camara is the new Minister of Marine.

Judge Walter Evans will have a U. S. commissioner to appoint at about \$6,000 a year, several good clerkships, bankruptcy referees and a number of employees of the court.

Judge Breckinridge made a speech at Glasgow yesterday announcing his candidacy for attorney general, but he did not make a set one, only telling the people as he said, "what was hurting him."

At a banquet in his honor at Chattanooga on the 20th, Mr. Bryan will respond to the toast "The Money of the Constitution." Many prominent democrats will be present and covers laid for 400.

Senator Vest, an anti-expansionist, says that it is all nonsense to talk about the fight against expansion having just begun; that the fight has been made and lost; that "we have expanded in spite of Hades."

P. Wat Hardin's still hunt in Owensboro worked like a charm. He dropped into town early Friday morning and secretly put his friends to work to capture the railroad commissioner convention Saturday afternoon, and succeeded.—Owensboro Messenger.

The new army bill provides that in time of peace the enlisted strength of the regular army is limited to less than 29,000 men. Until July 1, 1901, the president can increase the regular army to 65,000 men. One hundred additional cadets are to be appointed. The president is authorized to enlist 35,000 volunteers for two years and four months. There are to be 27 regiments of infantry and three of cavalry among the volunteers. One brigadier-general may be named for each 4,000 volunteers. One major-general for each 12,000 volunteers. Post canteens are abolished.

Senator Lindsey's friends say he will go to New York to live at the end of his senatorial term.

The Democrat says Clark is for Hardin now, but Stone has a good and growing following.

Chairman Cannon of the appropriations committee, charges \$482,562,083.47 of the appropriations to the war, leaving \$1,084,327,632.81 for what he calls the "normal" appropriations made by the 55th Congress. Mr. Doskery, dem., of the committee says the expenditures were excessive and shows that the country will soon be confronted with a large deficit, to meet which either increased taxation or another bond issue will be necessary.

A good deal is said about the initiative and referendum in direct legislation, and as some do not understand it we explain: Under the initiative the people can compel the submission to themselves of any desired law, when, if it receives a majority of the votes cast, it will be thereby enacted. Under the referendum the people can compel the submission to themselves of any law which has been adopted by a legislative body, when, if such law fails to receive the majority of the votes cast, it will be thereby rejected.

From a mass of the most trustworthy evidences it is plain that Gen. Miles understated the case instead of exaggerating it. The beef was wormy; it was strygy; it afforded no nourishment; it made the men who ate it sick, and hundreds of tons were simply dumped in the sea or buried on land because the stench from it was intolerable. One physician testified that he had seen the embalming process applied by the contractors. Even the half-starved Cubans turned from and refused to touch the loathsome mess. It is evident therefore that the Government has been robbed. It is evident that officials of the war and commissary departments either grossly neglected their duty or corruptly connived at the fraud. And above all it is clear that Gen. Miles, who has defied the whole Administration by an honest and manly exposure, is thoroughly sustained by the facts.—Louisville Times.

Ernest Graves, aged 14, accidentally shot and killed himself while hunting near Hopkinsville.

The W. T. Woodard residence in Lexington was sold to Dr. W. O. Sweeney for \$12,000.

Five men and a woman were buried under an avalanche in Colorado. A boarding-house was crushed.

A Canton, O., man, aged 73, was sent to the penitentiary for four years for assaulting a 12-year-old girl.

The steamboat Butteroff struck an L. & N. pier at Clarksville and went to pieces. Her crew were saved.

Mrs. Cornelia Jackson, only sister of Joe Jefferson, and an actress of some note, died in New York of cancer.

Jesse James, acquitted of train robbery at Kansas City, has been offered \$1,500 a week to go on the stage.

Richard White was shot to death by unknown parties in Birmingham, while escorting a young lady to church.

Mrs. Oscar Pepper, widow of the founder of the old Oscar Pepper distillery, is dead at Lexington, aged 72.

The county board of supervisors of Franklin find that there are only seven diamonds given in that county.

Louisville suffered the severest storm since 1855 and great damage was done to windows and other fragile property.

At Columbus, O., 109 small-pox suspects attempted to break out of the pest-house, but were beaten back by the police.

Coffin and cork leg combines are the latest.

Admiral Montejó, who was cleaned out by Dewey at Manila, has been thrown into jail, pending his trial for getting whipped.

Meningitis has made its appearance at Pewee Valley. Lieut. Albert C. Jurey is dead of it and Mrs. Atwood Martin is very low.

The United States hospital ship Relief with medical supplies enough to last an army of 25,000 men a year, left New York for Manila.

A cyclone struck the town of Madisonville, Tenn., and wrecked 12 or 15 houses, killing three people and injuring about a dozen others.

William Fox, sent up from Kenton for murder, was refused at the penitentiary because he came from a county infected with small pox.

Mrs. John Gilbert and her four children were found dead in their home near Coffeyville, Kas. The husband is suspected of the murder.

J. Ed Caldwell committed suicide at the Willard Hotel on account of ill-health. He was book keeper for the Louisville Coffin Company.

By a vote of 146 to 77, the House refused to consider whether Gen. Wheeler, Colson and others who joined the army had forfeited their seats.

Eighteen insurance companies have withdrawn from Franklin county as a result of the grand jury's action. Other companies, it is said, will follow suit.

An old memorandum book has been found at Hopkinsville, disclosing the names of the 101 heretofore unknown Confederate dead who are buried in that city.

Harry Price, who shot Capt. Carr, of the Legion, for treating him badly in the army, recently, shot and fatally wounded Jerry Mooningham, on a steamboat, near Louisville.

A jury at Birmingham awarded the wife of Engineer White \$12,500 damages. He was killed in the Cahaba river bridge disaster, in which 27 people lost their lives.

The Kentucky river rose 30 feet in 24 hours at Beattyville. At Cynthia a much damage has been done to property by the rapid rise in the south fork of the Licking.

R. H. Ingram took the bankrupt law at Louisville, owing all the officers of the L. & N. from President Smith down. His assets are three suits of old clothes and a \$15 watch.

Gen. Gomez says the Cuban army has 32,000 privates, 10,000 non-commissioned officers and 6,000 commissioned officers. United States army pay-masters with \$3,000,000 will arrive in Havana next week.

Forty dead bodies have been recovered from the ruins caused by the explosion of a powder magazine near Toulon, France. It is believed that many more were killed. Fifty thousand kilograms of black powder exploded.

The most frightful feature of the terrible Madisonville, Tenn., tornado was Jack Moser's fearful death. He was hurled by the wind's force from his house a distance of 700 yards until his progress was impeded by a wire fence, which completely severed his head from the body.

The gross railroad earnings, as compiled by the Financial Chronicle, for 1898 show an aggregate for 163,000 miles of \$1,180,000,000, compared with \$1,112,417,900 in 1897. This is an increase of 6 per cent. over very large totals for the previous year, and amounts to over \$7,000 per mile.

The business of the past month is the greatest ever known in February. The clearing house exchanges are about \$7,000,000,000, against \$5,567,553,844 last year, and 54.2 per cent. larger than in 1897. In all the years of weekly commercial reporting there has been no other week in which the reports have been so good as last week. There were only 181 failures in the U. S. during the week.

MATRIMONIAL MATTERS.

Miss May McCormick, of Somerset, and J. W. Tucker, of Southville, were married in Louisville Friday.

Of 1,000 men who marry it is found that 322 marry younger women, 570 marry women of the same age, and 89 older women.

Mrs. Rosa Washington, a widow with four children, was married at Richmond, Ind., to a youth of 18. Two of her children are older than their stepfather.

Robert Hawley, of Owenton, O., disappointed because of his failure to marry a girl of that place, chopped himself literally to pieces with a hatchet, dying in a few hours.

"Shoots-at-Him," an Indian at Deadwood, has applied for a divorce, alleging infidelity. It is the first instance of an Indian invoking the law to rid him of his squaw.

A Chicago woman who married in preference to taking a dare in Butte, Mont., last December has already gotten a divorce. Marrying doesn't often prove as funny as some people expect.

Marion F. Hicks, who was a soldier in the 4th Kentucky, wants a divorce from his wife because he claims he was drunk when he married her. While in camp at Lexington he married Miss Desdemona Atchison and the suit has been filed at that place.

A singular plea is made by Mrs. A. H. Stokes, who sued her husband for divorce at Louisville and had a cross

THE WEATHER.

Saturday there was a series of electric storms, accompanied by hail and heavy rain, the latter pitting the St. Asaph away out of its banks and washing out gardens badly, besides sweeping away some fences. The mercury stood in the 60s all day.

Sunday opened with snow, which lasted till nearly noon, and soon melted. Fair in the afternoon, mercury at freezing point.

Monday it began snowing again at 6 A. M., mercury 28 degrees, and fell at the rate of an inch an hour.

It grew colder all day, the snow, which fell on a level to five inches and drifted to 15, ceasing, except in gusts after noon.

Tuesday—4 below zero at 6 A. M. Fearfully cold night. Clear.

PERSONAL AND SOCIETY GOSSIP.

MRS. W. F. MCKINNEY returned from Louisville Saturday.

MRS. MILDRED BEAZLEY, of Lancaster, is visiting her children here.

MRS. MARY TOMKINS, of Lexington, arrived Friday to visit Mrs. L. H. Fry or.

MISS MOLLIE BROOKS, of Crab Orchard, passed down to Louisville yesterday.

W. H. PETTUS has been made permanent day operator at the Lebanon depot.

J. B. CARTER, of Garrard, was here a short while Friday returning from Louisville.

MRS. S. D. YOWELL spent several days with her husband's parents at Hustonville.

THE managers of the annual declamatory contest have already secured Miss Tevis Carpenter to represent Stanford.

MR. AND MRS. J. RANDOLPH HARRIS, of Lancaster, will move to Mr. J. F. Cash's, in the Turnersville section, this week.

JOHN BAILEY, of Lincoln, is among the enlistments at Lexington for the 10th cavalry and he has been sent to Fort Clark, Texas.

MR. J. C. MCCLARY attended the burial of N. M. Shumate near Brodhead Sunday. Pneumonia was the cause of his death.

J. ED POTRET, son of County Clerk W. J. Potret, of Harrodsburg, is here for a few days representing Crutcher & Starks, of Louisville.

A LITTLE card tells of the birth of Peyton Wise Parrott, to Mr. and Mrs. Mrs. Peyton Parrott, of Lexington, former residents of this place.

MRS. W. R. COOK and son will leave in a few days for Asheville, N. C., to visit her mother, Mrs. E. L. Owsley, and brother, W. O. Owsley.—Record.

DWIGHT ROOT, JR., who joined the 2d Mo., after being mustered out of the 2d Ky., is at home again, having been mustered out last week at Albany, Ga.

MRS. BELLE GENTRY, of Newburn, Tenn., who came to attend the burial of her brother, N. M. Shumate, of Rockcastle, is the guest of Mrs. Eliza Blain.

THE Harrodsburg Democrat says that Mr. S. C. Lackey is out again after a severe spell of pneumonia. Same paper says that Mr. and Mrs. S. W. Givens visited him.

THE Somerset Paragon says that Henry Waddle, late of Lincoln county, who has just been mustered out of the 1st Ky., has joined the 4th cavalry and gone to San Francisco.

MRS. MARY BOWMAN leaves Wednesday for St. Joe, Mo., to visit Mrs. McAllister. Mrs. Reuben Gentry and children and "Uncle Jesse" Dunn leave to-night for Asheville, N. C., where they will live in the future. Mr. Gentry accepted an important position in the live stock department of Mr. Vanderbilt's big farm "Biltmore."—Danville Advocate.

LOCAL HAPPENINGS.

J. P. DAVIS won his contention as to a mortgage given to him by Bankrupt H. J. Darst before Referee J. N. Saunders. J. R. Bush was appointed to sell the place.

AUCTION.—Mark Hardin will resume the auctioning off of his stock at 10 o'clock Saturday next. He will also auction all day Monday, County Court day.

THE college resumed yesterday. Dr. Shelton tells us that the small-pox scare will force him to make up the lost week in June, thereby delaying commencement a week.

A SLIDE near Tunnel No. 6 delayed the day passenger Saturday 64 hours and one below Jellico on the Southern delayed the night express Sunday 10 hours, besides throwing all trains out of gear.

READ THIS.—I will open up my millinery emporium about March 25, three doors above the Myers House, on Main Street, in the Elmore Block. Thanking my customers for their support I still ask and need a continuance of same. Mrs. Kate Dudderar. *

ORDERS TAKEN.—Mr. J. Ed. Potret, representing Crutcher & Starks, Louisville, will be in Hustonville for one day—Thursday, with a full line of Brokaw clothing, Dunlap hats, Hanan shoes and a complete line of furnishing goods. Be sure to see the line as it is the finest in the State.

FOR the fourth time lightning struck close to Squire George P. Bright's house, near Hedgeville, Saturday. This time a straw stack on Mrs. Eliza Harris' place was the target hit and it was burned almost instantly. The stack was less than 300 feet from Mr. Bright's residence.

WHEN it was snowing yesterday at the rate of an inch an hour, we met Mr. John Bright. "Did you ever see anything like this?" we asked. "Oh yes," said he who never agrees that those later events amount to anything. "away back in '55, snow fell 1 1/2 inches an hour."

SEVERE ACCIDENT.—Mr. Walter Gooch, son of Hanley Gooch, of the Waynesburg section, had his horse to run away with him last week, and as he passed under a tree Mr. Gooch's head struck a limb knocking him off and mashing his skull in. He lay unconscious for six hours, when he rallied for a day or two, since which he has been a raving maniac at times.

STANFORD people deny there are six cases of small-pox at that place. They claim it is only an aggravated form of it. Stanford seems to have escaped by a scratch.—Louisville Times. This is titillating and risibiling, but nobody has ever charged that there were six cases here. Only the original one has shown up. The others near Walnut Flat have been spoken of as the itch.

OLD PAPERS.—Mr. S. P. Gooch, of Waynesburg, who is on the jury, showed us some old tax receipts held by his mother-in-law, Mrs. Ermine Padgett, that were dated Nov. 11, 1799, and are for 200 acres of land on the South side of Green river upon which 26 were charged. She also has the discharge papers of Rice McMullen, who served in the war of 1812.

SOLD OUT.—John L. Tanner, head of the firm of Tanner Bros., McKinney, has sold his interest to his father, K. L. Tanner, who will continue the business with his son, E. J. Tanner, under the firm name of K. L. Tanner & Son. Mr. Tanner leaves today for Houston, Texas, where he proposes to locate and open a store. His family will join him later. He is a splendid business man and will succeed anywhere.

SHOT HIS BROTHER-IN-LAW.—Frank Lawrence shot and badly wounded Walter Warren in the Preachersville section Saturday morning. They are both sons-in-law of Mr. Silas Anderson and have been on bad terms for some time. Lawrence and his brother started across Warren's place and when the latter saw them coming he ran to a gate they would have to go through and holding it, ordered them not to come through. They drove off, however, when Warren called to his wife to come. Lawrence claims that Warren was cursing him and that the latter's wife was bringing something he thought was a pistol and he drew his pistol and fired four times, only one of which struck Warren. Dr. Cook was sent for and he found a painful wound in the back of his head. Lawrence came in and gave himself up and was given bail in \$300. He says that Warren had threatened more than once to kill him and that he believes he would have done so Saturday, had he not shot him first.

DEATH.—Mrs. Lizzie Mitchell, mother of the wife of Rev. J. H. Hopper, died at Perryville, Saturday, of pneumonia, aged 91. The Advocate says she had living 24 grandchildren, 32 great-grandchildren, and one great-great-grandchild, and was one of the best women that ever lived in Boyle county.

AFTER making arrangements to show at Lancaster, the "Back on the Farm Co.," went back on its contract and staid at Somerset, where, according to the Paragon, it did no good, because it was weak on the stage and in the band. There is some consolation in the small-pox scare after all. Stanford was spared the infliction of this troupe on account of it.

THERE are two gentlemen on the present jury who would not have felt uneasy had court been held last week. They are Squire L. B. Adams and Mr. Jesse Huston, both of Hustonville, who had the loathsome disease years ago. Squire Adams' wife and a half dozen of his children had the small pox also and but two of them show any signs of it whatever.—Mrs. D. J. Newburn and Greenberry Adams, now of Texas.

BARNETT.—Of pneumonia after a short illness, Mr. Robert Barnett died at his home at the old Hays' place near town, Sunday night, aged about 55. He had been in bad health for a long time and his enfeebled constitution was unable to withstand the disease that carries off so many thousands yearly. Deceased was twice married, first to Miss Rounten and a few years after her death to Miss Lyons, who survives him with two children.

THE small-pox has ceased to be a subject of conversation and consequently there are no lies afloat about it. Dr. Bailey says that Sowder, the only patient here, after having a bad day or two, is getting along well now, and that his trip to the Walnut Flat section yesterday disclosed no new cases, the ones heretofore reported getting along finely. As this is the 18th or 19th day since Sowder broke out, and no new case appearing, Dr. Bailey is satisfied that there will be no spread here of the disease. Business was opening up well again till the snow and zero weather set in, and people were going and coming as usual. All the churches held services Sunday and were fairly attended. We were a great deal worse scared than hurt; thanks to a kind Providence who moves in a mysterious way his wonders to perform.

CIRCUIT COURT, which was dismissed for a week on account of the small-pox, resumed yesterday with both the juries and many litigants on hand, tho' it was a fearful day to come to town. Hayden Reynolds, for selling whisky on Sunday, was acquitted, his four other cases for violating the liquor laws being continued. The cases against Maggie Tall, for house-breaking, and Alice Dishon, for stealing, were dismissed. Wood's Uphegrove was not present but a fine of \$50 was assessed against him for disturbing religious worship, and Rufus Wilborne and Arthur Baugh each caught it for 10 days in jail and \$25 fine for carrying concealed weapons. The oft-tried case of John Smith, colored, for the killing of Gemina Nelson, while he was fighting with Ben Lewis, was again called and a jury obtained after some difficulty. J. B. Paxton represented the defendant who was acquitted this morning, the case being submitted without argument.

As the trial of E. K. Wilson for bail for the murder of Miss Mary Floyd at London is set for 2 this afternoon and as it will likely take some time, but little can be accomplished at this court, which ends by limitation Saturday.

THE following are here to take a hand in the Wilson trial for bail: W. F. French, D. K. Rawlings, W. H. Williams, J. R. Burnes, Dr. A. C. Foster and W. H. Steele, of London.

HON. W. W. DICKERSON, attorney for E. K. Wilson, is here from Williamstown.

CHURCHES AND PREACHERS.

As a thank offering to God for the safe arrival of the long overdue Bulgaria, the American Line has given \$10,000 to charity.

Pleasant View Baptist church at Tyronne, Okla., wants a pastor who would "like to Come West and handle cattle for part living."

The handsome, new Baptist church at Monticello will be dedicated the first Sunday in April by Rev. W. P. Harvey, of Louisville.

Eld. J. W. Hagin has been engaged by the Turnersville church to preach on the 2nd and 4th Sundays in each month at 10:30 A. M. and 7:30. Sunday school at 9:30 A. M. and Christian Endeavor Society at 6:30 P. M. every Sunday.

H. V. Escott, until recently a successful business man in Louisville and a member of one of the first families there, felt called to preach and giving up everything else began to do so. He and his wife will take charge of mountain evangelistic work of the Presbyterian church and will leave soon for Whitesburg.

J. W. McGarvey, Jr., who went to Chicago to bring back the million dollars that Robert Breckinridge Hallihan had given to Kentucky University, has

returned decidedly of the impression that Hallihan is a victim of nervous prostration to say the least. He hasn't got any money.

The Holston Christian Advocate of the 2d contains a sketch of Rev. B. C. Horton, brother of Miss Callie Horton, stenographer and typewriter for the INTERIOR JOURNAL. It pays him the highest compliments as a preacher and a christian and says that although he has been preaching since 1892, he has brought more than 400 into the fold. He possesses a critical, analytical and an investigating intellect, the sketch says, is an argumentative speaker and a pulpit teacher of rare ability. He is now pastor of the church at Hariman, Tenn., and is steadily building it up.

The \$1,000 Oakland Handicap was won at New Orleans Saturday by Clay Pointer, with Donna Rita second and Ben Ronald third.

Gen. John B. Castleman has bought the fine saddle stallion, Cromwell, 73, and will use him for private service at his farm at Shakertown.

Sales of corn at \$1.85 delivered. 3,000 bushels of wheat at 70 to 75c and engagements of lambs at 5c are reported in the Harrodsburg Democrat.

Josh Jones bought in Wayne and Casey 72 feeding cattle at 3 1/2 to 4 1/2c. He sold to B. G. and G. E. Vaught, of Pulaski, a 15-months-old hornless bull for \$41.

Tremont, "the unbeaten," broke his stifle and had to be killed at Belle Meade farm, near Nashville. He won 11 stakes as a two-year-old and changed hands twice at \$25,000 and \$17,500.

The largest single wheat field in the world is now being planted with grain. It covers over 25,000 acres, or 40 square miles, and is on the banks of the San Joaquin River, near the town of Clovis, in California.

G. E. Black bought 15 car loads of cattle in Tennessee and sold them at Paris at 4 to 5c. A wagon load of corn sold on the street here Tuesday at \$1.90.

Zena Cobb, of White Hall, sold to Wagers & Cohen 30 800-pound heifers at 4c. Sales of hogs at 3.15 and two jacks at \$75 are also reported in the Richmond Register.

The 8th Immunes, colored, threatened to burn the town of Lytle, Ga., after they were mustered out, and the militia was called out, but no attempt at lawlessness was made.

The boiler of Tom Wisdom's mill in Daviess county exploded and three men were blown to pieces. Glass was broken in houses for miles around by the concussion.

Mrs. Samuel Boulware died near Richmond of spinal meningitis, aged 44 years. This is the second death from this disease in Madison county.

Admiral Dewey's pay will be about \$15,000 a year and as it goes on till his dying day he has a pretty good snap.

A case of small-pox broke out in an apartment house at Cleveland, O., where 400 people live and it was quarantined.

The New Albany Lodge of Knights of Pythias refused to pay the insurance on a suicide and his wife has brought suit.

John Gilbert, whose family of five were found murdered, near Clay Center, Kas., confessed to the crime.

Josephine, oldest daughter of Rudyard Kipling, is dead of pneumonia. The father is recovering.

The wife of Auctioneer J. J. McGinnis died of consumption in Boyle.

Constable Robert Jones, of Madison, died of pneumonia.
